Recommendation Letter

To Whom It May Concern:

I am writing on behalf of Mr. Mohamad Mahayni, a special student of mine, that I had taught him four courses: Principles of Biomedical Engineering, Automatic Control, Simulation & Modeling in Biomedical Engineering, and Biomedical Control.

He demonstrated a great inclination toward science, his eagerness to learn pushed him to expand his knowledge on any subjects through research and hard work. He was a well-rounded student, which enabled him to connect the dots between different subjects in order to find the best solution for the given obstacle.

He also was: a high-quality presenter, modest person, and a people person who knew how to manage professional relationships.

I highly recommend Mr. Mahayni to join your university based on the good attributes I had seen of him throughout the years. And I strongly believe he will be worthy of a place in your college.

Sincerely,

A handwritten signature in blue ink, appearing to read "Rasha", with a stylized flourish.

Dr. Rasha Massoud,
Head of Biomedical Engineering Department
Damascus University
